Projects

Chatting Web App in PHP (Apr 2022)

Created an online chat application that can be used to chat with friends and family in real time. HTML, Sass, JavaScript, ajax, PHP, and MySQL were used. The MySQL database successfully saves and retrieves the chats.

Wordle Game in JavaScript (Mar 2022)

Created a wordle game in which the user gets six chances to guess a five-letter word. The website uses API calls to retrieve a 5-letter word, and then another API call to get the meaning of the word. The entire game is written in JavaScript and have used HTML & Sass for frontend and styling.

Covid Tracker (Apr 2021)

This Covid tracker provides the most recent information on covid19 in India. It gets real-time data from the covid19bharat.org API.
